The above plan focuses on our 'core' products. For guidance on using the other products in our range, please see below.

- FORCE 12 + DMG** A lower cost but lower spec alternative to FORCE 13. Use for 2 days prior to basketing. Not required if using FORCE 13.
- DIMETHYLFORM** The original DMG for pigeons. Not required if using AVIFORM ULTIMATE, FORCE 13 or FORCE 12, as all contain DMG.
- E-PLUS** For rapid return to peak health after racing or illness/medication. Not required if using AVIFORM ULTIMATE or PROLYTE
- ELECTROFORM** Post race electrolytes for rapid return to fitness. Not required if using AVIFORM ULTIMATE, E-PLUS or PROLYTE.

- VITAFLIGHT** High spec vitamins, minerals and amino acids as a soluble powder. Not required if using AVIFORM ULTIMATE.
- MINERALS** Free access minerals in a choice of pink or black. Can be used alongside all Aviform products.
- MCT ENERGY** Add to corn for efficient energy. Can be used alongside all Aviform products.
- WHEATGERM** Add to corn during breeding for an extra boost of nutrients including Vitamin E. Can be used alongside all our products.
